

United Gulf Bank B.S.C.

CONSOLIDATED FINANCIAL STATEMENTS

31 DECEMBER 2016

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF UNITED GULF BANK B.S.C.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of United Gulf Bank B.S.C. ("the Bank") and its subsidiaries (together "the Group"), which comprise the consolidated statement of financial position as at 31 December 2016, and the consolidated statements of income, comprehensive income, changes in equity and cash flows and for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2016 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended 31 December 2016. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements' section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
UNITED GULF BANK B.S.C. (continued)**

Report on the Audit of the Consolidated Financial Statements (continued)

Key audit matters (continued)

1. Impairment of loans and advances	
Key audit matter	How the key audit matter was addressed in the audit
The management exercise significant judgement using subjective assumptions over both the timing of recognition of impairment, and estimation of the amount of the impairment provision for loans and advances. Because loans and advances form a major portion of the Group's assets, and due to the significance of judgment used in estimating both the specific and collective provisions for loans and advances, this audit area is considered a key audit risk. As at 31 December 2016, the gross loans and advances amounted to USD 1,228 million and related loan loss impairment provision amounted to USD 29 million and collective impairment provision of USD 15 million. The impairment provision policy is presented in the accounting policies in note 2 to the consolidated financial statements.	Our audit procedures included the assessment of controls over the authorization, granting and booking of loans and advances to confirm the operating effectiveness of the key controls in place for the credit processes. We tested a sample of loan facilities, and assessed the criteria for determining whether an impairment event had occurred, focusing on new real estate lending, which present different risks than those ordinarily faced by the Group with trade finance or factoring business. Additionally, we selected samples of performing loans and assessed whether the borrowers exhibit any possible default risk that may affect the repayment abilities. The assessment included review of the facilities maturity dates to identify any past due exposures, discussions with the clients, review of the applicable external credit ratings and the available external information. For selected non-performing loans, we assessed management's forecast of recoverable cash flows, quality of collateral held, performance of the borrower and receipts after the financial reporting date. For the collective impairment provision, we obtained an understanding of the methodology used by the Group to determine the collective impairment provisions, assessed the reasonableness of the underlying assumptions and the sufficiency of the data used by the management. We also assessed whether the consolidated financial statements disclosures appropriately reflect the Group's exposure to credit risk. Refer to the critical accounting estimates and judgements and disclosures of loans and advances in Note 2 and 7 to the consolidated financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
UNITED GULF BANK B.S.C. (continued)**

Report on the Audit of the Consolidated Financial Statements (continued)

Key audit matters (continued)

2. Goodwill impairment	
Key audit matter	How the key audit matter was addressed in the audit
Goodwill impairment testing of cash generating units ('CGUs') relies on estimates of value-in use based on estimated future cash flows. Due to the uncertainty of forecasting and discounting future cash flows and the significance of the Group's recognised goodwill of USD 52 million as at 31 December 2016, this audit area is considered a key audit risk. The basis of the goodwill impairment policy is presented in the accounting policies in note 2 to the consolidated financial statements.	Our audit procedures included the assessment of reasonableness of cash flow projections and comparison of key inputs, such as the discount rates and growth rates, to externally available industry, economic and financial data and the Group's own historical data and performance. With the assistance of our own specialists, we assessed the assumptions and methodologies used to forecast value-in-use for those CGUs. Additionally, we considered whether the Group's disclosures of the application of judgement in estimating CGU cash flows and the sensitivity of the results of those estimates adequately reflect the risks associated with goodwill impairment. Refer to the critical accounting estimates and judgements and disclosures of goodwill in Note 2 and 11 to the consolidated financial statements.
3. Impairment testing of investments in associates	
Key audit matter	How the key audit matter was addressed in the audit
The determination of recoverable amounts of the Group's investments in associates relies on management's estimates of future cash flows and their judgment with respect to the associates' performance. Due to the uncertainty of forecasting and discounting future cash flows, the level of management's judgement involved and the significance of the Group's investment in associates of USD 709 million as at 31 December 2016, this audit area is considered a key audit risk. The basis of impairment of investment in associates is presented in the accounting policies in note 2 to the consolidated financial statements.	Our audit procedures included the assessment of forecasts of future cash flows prepared by the management, evaluating the assumptions and comparing the estimates to externally available industry, economic and financial data. With the assistance of our own specialists, we assessed the assumptions and methodologies used by the management to determine the recoverable amount of the investment in associates. Additionally, our audit procedures included comparison of the carrying values of the Group's investment in associates for which audited financial statements were available with their respective net asset values and discussions with management of the associates' performance and their outlook. Refer to the critical accounting estimates and judgements and disclosures of investment in associates in Note 2 and 9 to the consolidated financial statements.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF UNITED GULF BANK B.S.C. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Other information included in the Group's 2016 annual report

Other information consists of the information included in the Group's 2016 Annual Report, other than the consolidated financial statements and our auditor's report thereon. The Board of Directors is responsible for the other information. Prior to the date of this auditors' report, we obtained the Directors report which forms part of the annual report, and the remaining sections of the annual report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of the auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the consolidated financial statements

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF UNITED GULF BANK B.S.C. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the consolidated financial statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
UNITED GULF BANK B.S.C. (continued)**

Report on the Audit of the Consolidated Financial Statements (continued)

Auditor's Responsibilities for the audit of the consolidated financial statements (continued)

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Bahrain Commercial Companies Law and the Central Bank of Bahrain (CBB) Rule Book (Volume 1), we report that:

- a) the Bank has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
- b) the financial information contained in the Report of the Board of Directors is consistent with the consolidated financial statements;
- c) We are not aware of any violations of the Bahrain Commercial Companies Law, the Central Bank of Bahrain and Financial Institutions Law, the CBB Rule Book (Volume 1 and applicable provisions of Volume 6) and CBB directives, regulations and associated resolutions, rules and procedures of the Bahrain Bourse or the terms of the Bank's memorandum and articles of association during the year ended 31 December 2016 that might have had a material adverse effect on the business of the Bank or on its consolidated financial position; and
- d) Satisfactory explanations and information have been provided to us by management in response to all our requests.

The partner in charge of the audit resulting in this independent auditor's report is Fawad Laique.

The attached explanatory notes 1 to 33 form part of these consolidated financial statements

1 INCORPORATION AND PRINCIPAL ACTIVITIES

Incorporation

United Gulf Bank B.S.C. (the "Bank") is a joint stock company incorporated in the Kingdom of Bahrain in 1980, under Commercial Registration number 10550 and listed on the Bahrain Bourse. The address of the Bank's registered office is UGB Tower, Diplomatic Area, P.O. Box 5964, Manama, Kingdom of Bahrain.

The Bank operates in the Kingdom of Bahrain under a Wholesale Banking License issued by the Central Bank of Bahrain ("the CBB").

Activities

The principal activities of the Bank and its subsidiaries (together the "Group") comprise investment banking and commercial banking. Investment banking includes asset portfolio management, corporate finance, advisory, investment in quoted and private equity funds, real estate, capital markets, international banking and treasury functions. Commercial banking includes extending loans and other credit facilities, accepting deposits and current accounts from corporate and institutional customers.

The Bank's parent and ultimate holding company is Kuwait Projects Company (Holding) K.S.C. (closed) ("KIPCO"), a company incorporated in the State of Kuwait and listed on the Kuwait Stock Exchange. As at 31 December 2016 KIPCO owned 97.77% of the Bank's outstanding shares (2015: 97.77%).

These consolidated financial statements were authorised for issue by the Board of Directors on 28 February 2017.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and the relevant provisions of the Central Bank of Bahrain and Financial Institutions Law and the Bahrain Commercial Companies Law, and the CBB Rulebook (Volume 1 and applicable provisions of Volume 6), relevant CBB directives and regulations and associated resolutions, rules and procedures of the Bahrain Bourse.

Basis of preparation

The consolidated financial statements have been prepared under the historical cost convention as modified by the remeasurement at fair value of investments carried at fair value through statement of income, non-trading investments, investment properties and derivative financial instruments.

Presentation and functional currency

The consolidated financial statements have been presented in US Dollars (US\$) being the functional currency of the Group and are rounded to the nearest US\$ thousands except when otherwise indicated.

New and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year, except for the following new and amended IFRSs effective as of 1 January 2016:

Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments clarify the principle in IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is a part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are applied prospectively and do not have any impact on the Group, given that it has not used a revenue-based method to depreciate its non-current assets.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

New and amended standards and interpretations (continued)

Annual Improvements 2012-2014 Cycle

These improvements include:

IFRS 5 Non-current Assets Held for Sale and Discontinued Operations

Assets (or disposal groups) are generally disposed of either through sale or distribution to the owners. The amendment clarifies that changing from one of these disposal methods to the other would not be considered a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in IFRS 5. This amendment is applied prospectively. This did not have any impact on the consolidated financial statements of the Group.

IFRS 7 Financial Instruments: Disclosures

The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and the arrangement against the guidance for continuing involvement in IFRS 7 in order to assess whether the disclosures are required. The assessment of which servicing contracts constitute continuing involvement must be done retrospectively. However, the required disclosures need not be provided for any period beginning before the annual period in which the entity first applies the amendments. This did not have any impact on the consolidated financial statements of the Group.

IAS 19 Employee Benefits

The amendment clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. This amendment is applied prospectively. This did not have any impact on the consolidated financial statements of the Group.

Amendments to IAS 1 Disclosure Initiative

The amendments to IAS 1 clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify:

- The materiality requirements in IAS 1;
- That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated;
- That entities have flexibility as to the order in which they present the notes to financial statements; and
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement(s) of profit or loss and OCI. These amendments do not have any impact on the Group.

Significant accounting policies are set out below:

Principles of consolidation

The consolidated financial statements include the financial statements of the Bank and its subsidiaries as at 31 December 2016. The reporting dates of the subsidiaries and the Bank are identical and the subsidiaries' accounting policies conform to those used by the Bank for like transactions and events in similar circumstances.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Specifically, the Group controls an investee if and only if the Group has:

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**Principles of consolidation (continued)**

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of Other Comprehensive Income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- a) Derecognises the assets (including goodwill) and liabilities of the subsidiary;
- b) Derecognises the carrying amount of any non-controlling interest;
- c) Derecognises the cumulative transaction differences, recorded in equity;
- d) Recognises the fair value of consideration received;
- e) Recognises the fair value of any investment retained;
- f) Recognises any surplus or deficit in the consolidated statement of income; and
- g) Reclassifies the parent's share of a component previously recognised in OCI to consolidated statement of income or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

The principal subsidiaries of the Bank are as follows:

<i>Name of the subsidiary</i>	<i>Country of incorporation</i>	<i>Ownership at</i>		<i>Year of incorporation</i>
		<i>31 December 2016</i>	<i>2015</i>	
<i>Held directly</i>				
FIMBank Group [FIMBank]	Malta	61%	61%	1994

The Egyptian Company for Factoring	Egypt	100%	50%	2006

During the year, the Group's management decided not to participate in a proposed capital increase of Takaoud, a 50% owned subsidiary of the Group, and gave up control of Takaoud over to KIPCO, the other 50% owner of Takaoud. Accordingly, Takaoud has not been consolidated in these consolidated financial statements with effect from 1 October 2016. As control was lost before additional share capital was issued, no consideration was transferred and no gain or loss resulted from the loss of control.

During the year, the Bank acquired additional 50% equity interest in The Egyptian Company for Factoring S.A.E. ("Egypt Factors"), following which Egypt Factors has become a subsidiary of the Group. As of 31 December 2016, the Bank indirectly owns 100% (2015: 50%) of Egypt Factors through its subsidiary FIMBank.

Business combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through the consolidated statement of income. It is then considered in the determination of goodwill.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Business combinations (continued)

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IAS 39 Financial Instruments: Recognition and Measurement, is measured at fair value with the changes in fair value recognised in the statement of profit or loss.

Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

The Group's investments in its associates are accounted for using the equity method.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The consolidated statement of income reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's consolidated OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The financial statements of associates are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investments in its associates. At each reporting date, the Group determines whether there is objective evidence that an investment in an associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, then recognises the loss as 'Share of results of associates' in the consolidated statement of income.

Upon loss of significant influence over an associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in the consolidated statement of income.

Goodwill

Goodwill represents the excess of the cost of acquisition over the Group's share of the fair value of the net identifiable assets of the acquired subsidiary or associate at the date of the acquisition. Goodwill arising on the acquisition of an associate is included in the carrying amount of the respective associate and, therefore, is not separately tested for impairment. Goodwill arising on the acquisition of a subsidiary is recognised as a separate asset in the consolidated statement of financial position.

Goodwill acquired in a business combination is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the Bank's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities acquired.

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in the consolidated statement of income.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Goodwill (continued)

After initial recognition, goodwill is stated at cost less any accumulated impairment losses. Goodwill of subsidiaries is allocated to cash-generating units and is tested annually for impairment. If the recoverable amount of the cash generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. The recoverable amount of a cash-generating unit is the higher of the cash-generating unit's fair value less costs to sell, and its value in use. Any impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a part of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Fair value measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3: valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Group measures financial instruments, such as, derivatives, and non-financial assets such as investment properties, at fair value at each reporting date.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value measurement (continued)

For financial instruments traded in an active market, fair value is determined by reference to quoted market bid prices for assets and quoted market offer prices for liabilities, without deduction for transaction costs. The fair value of investments in managed funds or similar investment vehicles, where available, are based on last published bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indications that a market is inactive are when there is a wide bid-offer spread or significant increase in the bid-offer spread or there are few recent transactions.

For financial instruments where there is no active market, fair value is determined using appropriate valuation techniques. Such techniques may include the following:

- brokers' quotes
- recent arm's length market transactions
- the expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics
- option pricing models
- other valuation methods (Note 31)

Financial instruments with no active market and where fair value can not be reliably determined are stated at cost less provision for any impairment.

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount payable on demand.

The fair value of forward foreign exchange contracts is determined using forward exchange rates at the statement of financial position date with the resulting value discounted back to present value.

The fair value of interest rate swaps is determined by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

Investments carried at fair value through statement of income

Investments classified as carried at fair value through the statement of income comprise of two categories 'investments held for trading' and 'investments designated at fair value through statement of income'.

An investment is classified as 'held for trading' if it is acquired or incurred principally for the purpose of selling in the near term or if on initial recognition is part of a portfolio of identifiable financial investments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking. Derivatives which are not used as hedge are also categorised as held for trading.

Investments designated at fair value through statement of income are investments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the Group's investment strategy.

These investments are initially recognised at fair value. Transaction costs are immediately expensed in the consolidated statement of income. Subsequent to initial recognition, investments designated at fair value through statement of income are remeasured at fair value and gains and losses arising from such remeasurement are included in the consolidated statement of income.

Non-trading investments

These are classified as follows:

- Held to maturity; and
- Available-for-sale

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Non-trading investments (continued)

Held to maturity

Investments with fixed or determinable payments and fixed maturities are classified as held to maturity when the Group has the positive intention and ability to hold these investments to maturity. These investments are initially recognised at fair value, including directly attributable transaction costs.

After initial recognition investments held to maturity are carried at amortised cost using the effective interest rate method. Any gain or loss on such investments is recognised in the consolidated statement of income when the investment is derecognised or impaired. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortisation is included in 'interest income' in the consolidated statement of income. The losses, if any, arising from impairment of such investments are recognised in the consolidated statement of income.

Investments available-for-sale

Investments available-for-sale include equity investments and debt securities. Investments available-for-sale are those non-derivative financial assets that are designated as available-for-sale or are not classified as investment at fair value through statement of income, investments held to maturity or loans and receivables.

These investments are initially recognised at fair value, including directly attributable transaction costs.

After initial recognition, available-for-sale investments are measured at fair value with gains and losses being recognised in the consolidated statement of comprehensive income until the investment is derecognised or determined to be impaired at which time the cumulative gains or losses previously reported in the consolidated statement of comprehensive income are recognised in the consolidated statement of income. Investments whose fair value cannot be reliably measured are carried at cost less impairment losses, if any.

Dividends are included in 'dividend income'. Interest income on available-for-sale investments is recorded in 'interest income' in the consolidated statement of income, using the effective interest yield method.

Loans and receivables

Loans and receivables are non-derivative financial assets originated or acquired by the Group with fixed or determinable payments that are not quoted in an active market.

Loans and receivables are recognised when cash is advanced to borrowers. They are derecognised when either borrower repays their obligations, or the loans are sold or written off, or substantially all the risks and rewards of ownership are transferred.

Loans and receivables are initially measured at cost, being the fair value of the consideration given.

Following initial recognition, loans and receivables are stated at cost less any amount written off and specific and collective provisions for impairment.

Derivatives and hedge accounting

The Group makes use of derivative instruments to manage exposure to foreign currency risk and interest rate risk. In order to manage a particular risk, the Group applies hedge accounting to transactions which meet the specified criteria. The Group enters into derivative instruments, mainly forward foreign exchange contracts, interest rate and forward currency swaps in the foreign exchange markets.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Derivatives and hedge accounting (continued)

Derivatives are initially recognised and subsequently measured at fair value with transaction costs taken directly to the consolidated statement of income. The fair value of a derivative is the equivalent of the unrealised gain or loss from marking to market the derivative. Derivatives with positive fair values (unrealised gains) are included in other assets and derivatives with negative fair values (unrealised losses) are included in other liabilities in the consolidated statement of financial position.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the consolidated statement of income, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to the consolidated statement of income when the hedge item affects the consolidated statement of income.

At the inception of the hedging relationship, the Group formally documents the relationship between the hedged item and the hedging instrument, including the nature of the risk, objectives and strategy for undertaking the hedge and the method that will be used to assess the effectiveness of the hedging relationship.

Also, at the inception of the hedging relationship, a formal assessment is undertaken to ensure the hedging instrument is expected to be highly effective in offsetting the designated risk in the hedged item. Hedges are formally assessed at the end of each quarter. A hedge is regarded as highly effective if the changes in the fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated are expected to offset in a range of 80% to 125%.

For the purpose of hedge accounting, hedges are classified into three categories: (a) fair value hedges which hedge the exposure to changes in the fair value of a recognised asset or liability; (b) cash flow hedges which hedge exposure to variability in cash flows of a recognised asset or liability or a forecasted transaction; and (c) hedge of net investment in a foreign operation.

Fair value hedges

In relation to fair value hedges, that qualify for hedge accounting, any gain or loss from remeasuring the hedging instrument to fair value, as well as related changes in fair value of the item being hedged, are recognised immediately in the consolidated statement of income. At 31 December 2016 and 2015 there were no hedges classified as fair value hedges.

Cash flow hedges

In relation to cash flow hedges the effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised directly in the fair value reserve in the consolidated statement of comprehensive income. The gain or loss relating to the ineffective portion is recognised in the consolidated statement of income.

When the hedged cash flow affects the consolidated statement of income, the gain or loss on the hedging instrument is recycled in the corresponding income or expense line of the consolidated statement of income. When the hedging instrument expires or is sold, terminated or exercised or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at the time remains in equity and is recognised when the hedged forecast transaction is ultimately recognised in the consolidated statement of income. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the consolidated statement of income.

Hedge of net investments in foreign operations

Hedges of a net investment in a foreign operation are accounted for in a way similar to cash flow hedges. On the disposal of the foreign operation, the cumulative value of any such gains or losses recognised in equity through other comprehensive income is transferred to the consolidated statement of income.

For hedges which do not qualify for hedge accounting and held for trading derivatives, any gains or losses arising from changes in the fair value of the hedging instrument are taken directly to the consolidated statement of income for the year.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**Derivatives and hedge accounting (continued)***Hedge of net investments in foreign operations (continued)*

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. For discontinued fair value hedges of financial instruments with fixed maturities any adjustment arising from hedge accounting is amortised over the remaining term to maturity. For discontinued cash flow hedges or hedges of net investments in foreign operations, any cumulative gain or loss on the hedging instrument recognised in equity remains in equity until the hedged transaction occurs. If the hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to the consolidated statement of income.

Investment properties

All properties held for rental or for capital appreciation purposes, or both, are classified as investment properties. Where a property is partially occupied by the Group and the portions could be sold separately, the Group accounts for the portions separately either as an investment property or property and equipment, as appropriate. If the portions cannot be sold separately, the property is classified as an investment property only if an insignificant portion is held for own use.

The Group applies the fair value model of accounting for investment properties. All investment properties are initially recorded at cost, including acquisition expenses associated with the property.

Subsequent to initial recognition, all investment properties are remeasured at fair value and changes in fair value are recognised in the consolidated statement of income. The Group engages independent valuation specialists to determine the fair value of investment properties. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and impairment losses. When assets are sold or retired, their cost and accumulated depreciation are eliminated from the statement of financial position and any gain or loss resulting from disposal is included in the consolidated statement of income.

Lease assets

Leases in terms of which the Group does not assume substantially all the risks and rewards of ownership are classified as operating leases.

Leased assets held under operating lease are not recognised in the Group's statement of financial position.

Financial liabilities

Financial liabilities comprise of due to banks and other financial institutions, deposits from customers, loans, bonds and subordinated debt and other liabilities. These are stated at amortised cost. Transaction costs are amortised over the period of the debt using the effective yield method. Deposits from customers include deposits from both external customers and other group companies.

Treasury shares and treasury share reserve

Treasury shares are own equity instruments of the Bank which are reacquired by the Bank or any of its subsidiaries. These are stated at cost and deducted from equity. Any gain or loss arising on reissuance of treasury shares is taken directly to treasury share reserve in the consolidated statement of changes in equity.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and cash equivalents

Cash and cash equivalents include cash, demand and call deposits, highly liquid investments that are readily convertible into cash and placements (excluding escrow balances) with original maturities up to ninety days from the date of acquisition.

Fiduciary assets

Assets held in a fiduciary capacity are not treated as assets of the Group in the consolidated statement of financial position.

Dividends on ordinary shares

The Bank recognises a liability to make cash or non-cash distributions to its equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Bank. A distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the consolidated statement of income.

Dividends for the year that are approved after the statement of financial position date are disclosed as an event after the statement of financial position date.

Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease.

Taxes

There is no tax on corporate income in the Kingdom of Bahrain. Taxation on overseas subsidiaries is calculated on the basis of the tax rates applicable and prescribed according to the prevailing laws, regulations and instructions of the countries where these subsidiaries operate. Income tax payable on taxable profit ("current tax") is recognised as an expense in the period in which the profits arise in accordance with the fiscal regulations of the respective countries in which the Group operates.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- (a) When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (b) In respect of taxable temporary differences associated with investments in subsidiaries and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxes (continued)

Deferred Tax (continued)

Deferred tax assets and liabilities are measured using tax rates and applicable legislation at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Derecognition

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- (a) the right to receive cash flows from the asset have expired;
- (b) the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- (c) the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

Offsetting

Financial assets and financial liabilities are only offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognised amounts and the Group intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

Trade and settlement date accounting

All "regular way" purchases and sales of financial assets are recognised on the settlement date, i.e. the date the asset is delivered to the counterparty.

Employees benefits

The Group provides for end of service benefits to all its employees. Entitlement to these benefits is usually based upon the employees' length of service and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. National employees of the Bank are also covered by the Social Insurance Organisation scheme and the Bank's obligations are limited to the amount contributed to the scheme.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) arising from a past event and the costs to settle the obligation are both probable and reliably measurable.

Impairment of financial assets

An assessment is made at each statement of financial position date to determine whether there is objective evidence that a specific financial asset may be impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. If such evidence exists, an impairment loss, is recognised in the consolidated statement of income.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**Impairment of financial assets (continued)***Financial assets carried at amortised cost*

A financial asset is considered impaired when there is an objective evidence of credit-related impairment as a result of one or more loss event(s) that occurred after the initial recognition of the asset and those loss events have an impact on the estimated future cash flows of the financial asset or group of financial assets and can be reliably estimated.

A specific provision for credit losses, due to impairment of a loan or any other financial asset held at amortised cost, is established if there is objective evidence that the Group will not be able to collect all amounts due. The amount of the specific provision is the difference between the carrying amount and the estimated recoverable amount. The estimated recoverable amount is the present value of expected cash flows, including amounts estimated to be recoverable from guarantees and collateral, discounted based on the original effective yield basis.

In addition to a specific provision for credit losses, a provision for collective impairment is made on a portfolio basis for credit losses where there is an objective evidence that unidentified losses exist at the reporting date. These are based on any deterioration in the risk rating (i.e. downward migration of risk ratings) of the financial asset since it was originally granted. This provision is estimated based on various factors including credit ratings allocated to a borrower or group of borrowers, the current economic conditions, the experience the Group has had in dealing with a borrower or group of borrowers and available historical default information.

The carrying amount of the asset is adjusted through the use of a provision for impairment account and the amount of the adjustment is included in the consolidated statement of income.

Investments available-for-sale

For available-for-sale financial assets, the Group assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. 'Significant' is to be evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the statement of income – is removed from other comprehensive income and recognised in the consolidated statement of income. Impairment losses on equity investments are not reversed through the consolidated statement of income. Increases in their fair value after impairment are recognised directly in other comprehensive income.

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the statement of income. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the consolidated statement of income, the impairment loss is reversed through the consolidated statement of income.

Impairment of non-financial assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised in the consolidated statement of income for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell, and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows (cash-generating units). The impairment test also can be performed on a single asset when the fair value less costs to sell or the value in use can be determined reliably. Non-financial assets other than goodwill that suffer impairment are reviewed for possible reversal of the impairment at each reporting date.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currencies

The consolidated financial statements have been presented in US Dollars being the functional and presentational currency of the Bank. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded in the functional currency rate of exchange ruling at the date of transaction.

Translation of foreign currency transactions and balances

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the reporting date. Exchange differences arising on the retranslation of monetary items, are included in consolidated statement of income for the year. Non-monetary items measured at fair value in a foreign currency are retranslated using the exchange rates at the date when the fair value was determined. Exchange differences arising on the retranslation of non-monetary investments carried at fair value through the statement of income are included in the consolidated statement of income for the year. Exchange differences arising on the retranslation of available for sale equity investments, other than those which are carried at cost, are recognised directly in a fair value reserve in the consolidated statement of comprehensive income. Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

Translation of financial statements of foreign operations

Assets (including goodwill) and liabilities of foreign operations are translated at the exchange rates prevailing at the statement of financial position date. Income and expense items are translated at average exchange rates for the relevant period. All resulting exchange differences are taken directly to a foreign currency translation reserve in equity through other comprehensive income.

On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the consolidated statement of income.

Recognition of income and expenses

Interest income and related fees are recognised using the effective yield method, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses. The carrying amount of the financial asset or financial liability is adjusted if the Group revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original effective interest rate and the change in carrying amount is recorded as interest income or expense.

Recognition of interest income is suspended when the related financial asset becomes impaired. Notional interest is recognised on impaired financial assets based on the rate used to discount future cash flows to their net present value.

Commission income and other fees are recognised when earned.

Rental income on investment properties is recognised on a straight line basis.

Dividend income is recognised when the Group's right to receive the dividend is established.

Contingent liabilities and contingent assets

Contingent liabilities are not recognised in the consolidated financial statements, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognised in the consolidated financial statements, but are disclosed when an inflow of economic benefits is probable.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount recognised less cumulative amortisation.

Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Acting Chief Executive Officer of the Bank as its chief operating decision-maker.

All transactions between business segments are conducted on an arm's length basis, with intra-segment revenue and expenses being eliminated at Group level. Income and expenses directly associated with each segment are included in determining business segment performance.

Significant assumptions, accounting judgements and estimates

In the process of applying the Group's accounting policies, management has made the following assumptions, judgements and estimates in determining the amounts recognised in the consolidated financial statements:

Going concern

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

Classification of investments

Management decides on acquisition of an investment whether it should be classified as carried at fair value through statement of income, held to maturity or available-for-sale.

The Group classifies investments as held for trading if they are acquired primarily for the purpose of making short term profit. Classification of investments designated as fair value through statement of income depends on how management monitors the performance of these investments.

For those deemed to be held to maturity, management ensures that the requirements of IAS 39 are met and in particular the Group has the intention and ability to hold these to maturity.

All other investments are classified as available-for-sale.

The key assumptions concerning the future and other key sources of estimation uncertainty at the statement of financial position date, that have a risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Impairment of investments

The Group treats available-for-sale equity investments as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is 'significant' or 'prolonged' requires considerable judgment.

Impairment of goodwill

The Group determines whether goodwill is impaired at each reporting date. This requires an estimation of the value in use of the cash generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**Significant assumptions, accounting judgements and estimates (continued)***Impairment losses on loans and receivables*

The Group reviews its loans and receivables on a quarterly basis to assess whether a provision for impairment should be recorded in the consolidated statement of income. In particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty, and actual results may differ resulting in future changes to such provisions.

Collective impairment provisions on loans and receivables

In addition to specific provisions against individually significant loans and receivables, the Group also makes a collective impairment provision against loans and receivables, which although not specifically identified against a loan, have a greater risk of default than when originally granted. This collective provision is based on any deterioration in the internal grade of the loan since it was granted. The amount of the provision is based on the historical loss pattern for loans within each grade and is adjusted to reflect current economic changes.

These internal gradings take into consideration factors such as any deterioration in country risk, industry, technological obsolescence as well as identified structural weaknesses or deterioration in cash flows.

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the statement of consolidated financial position cannot be derived from active markets, they are determined using valuation techniques including discounted cash flow models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

3 PROSPECTIVE CHANGES IN ACCOUNTING POLICIES**New standards and interpretations issued but not yet effective**

Standards issued but not yet effective up to the date of issuance of the Group's consolidated financial statements are listed below. This listing is of relevant standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt those standards (where applicable) when they become effective:

*IFRS 9 Financial Instruments**Introduction*

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments that replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. IFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

Classification and measurement

From a classification and measurement perspective, the new standard will require all financial assets, except equity instruments and derivatives, to be assessed based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics. The IAS 39 measurement categories will be replaced by: fair value through profit or loss (FVPL), fair value through other comprehensive income (FVOCI), and amortised cost. IFRS 9 will also allow entities to continue to irrevocably designate instruments that qualify for amortised cost or fair value through OCI instruments as FVPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments that are not held for trading may be irrevocably designated as FVOCI, with no subsequent reclassification of gains or losses to the statement of profit or loss.

3 PROSPECTIVE CHANGES IN ACCOUNTING POLICIES (continued)

New standards and interpretations issued but not yet effective (continued)

IFRS 9 Financial Instruments (continued)

Classification and measurement (continued)

The accounting for financial liabilities will largely be the same as the requirements of IAS 39, except for the treatment of gains or losses arising from an entity's own credit risk relating to liabilities designated at FVPL. Such movements will be presented in OCI with no subsequent reclassification to the income statement, unless an accounting mismatch in profit or loss would arise.

The following is the outcome of an initial high level impact assessment performed by the Group during 2016:

- The majority of loans and advances to banks and customers, that are classified as loans and advances under IAS 39 are expected to be measured at amortised cost under IFRS 9;
- Financial assets held for trading and financial assets designated at FVPL are expected to continue to be measured at FVPL;
- The majority of the debt securities classified as available for sale under IAS 39 are expected to be measured at amortised cost or FVOCI. Some securities, however, will be classified as FVPL, either because of their contractual cash flow characteristics or the business model within which they are held; and
- Debt securities classified as held to maturity are expected to continue to be measured at amortised cost.

Hedge accounting

The Group believes that all existing hedge relationships that are currently designated in effective hedging relationships will still qualify for hedge accounting under IFRS 9. As IFRS 9 does not change the general principles of how an entity accounts for effective hedges, the Group does not expect a significant impact as a result of applying IFRS 9.

Impairment of financial assets

IFRS 9 will also fundamentally change the loan loss impairment methodology. The standard will replace IAS 39's incurred loss approach with a forward-looking expected loss (ECL) approach. The Group will be required to record an allowance for expected losses for all loans and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts. The allowance is based on the expected credit losses associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination, in which case, the allowance is based on the probability of default over the life of the asset.

The Group is currently working on establishing a policy to perform an assessment at the end of each reporting period of whether credit risk has increased significantly since initial recognition by considering the change in the risk of default occurring over the remaining life of the financial instrument.

- To calculate ECL, the Group will estimate the risk of a default occurring on the financial instrument during its expected life. ECLs are estimated based on the present value of all cash shortfalls over the remaining expected life of the financial asset, i.e., the difference between: the contractual cash flows that are due to the Group under the contract, and
- The cash flows that the Group expects to receive, discounted at the effective interest rate of the loan.

Under IFRS 9, the Group expects to group its loans into Stage 1, Stage 2 and Stage 3, based on the applied impairment methodology, as described below:

- Stage 1 – Performing loans: when loans are first recognised, the Group recognises an allowance based on 12-month expected credit losses.
- Stage 2 – Underperforming loans: when a loan shows a significant increase in credit risk, the Group records an allowance for the lifetime expected credit loss.
- Stage 3 – Impaired loans: the Group recognises the lifetime expected credit losses for these loans. In addition, in Stage 3 the Group recognises interest income on receipt basis.

3 PROSPECTIVE CHANGES IN ACCOUNTING POLICIES

New standards and interpretations issued but not yet effective (continued)

During the year, the Group performed a detailed impact assessment taking into consideration the above impairment methodology.

IFRS 15 Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers, effective for periods beginning on 1 January 2018 with early adoption permitted. IFRS 15 defines principles for recognising revenue and will be applicable to all contracts with customers. However, interest and fee income integral to financial instruments and leases will continue to fall outside the scope of IFRS 15 and will be regulated by the other applicable standards (e.g., IFRS 9, and IFRS 16 Leases).

Revenue under IFRS 15 will need to be recognised as goods and services are transferred, to the extent that the transferor anticipates entitlement to goods and services. The standard will also specify a comprehensive set of disclosure requirements regarding the nature, extent and timing as well as any uncertainty of revenue and corresponding cash flows with customers.

The Group does not anticipate early adopting IFRS 15 and does not expect any material impact on the consolidated financial statements of the Group.

IFRS 16 Leases

The IASB issued the new standard for accounting for leases - IFRS 16 Leases in January 2016. The new standard does not significantly change the accounting for leases for lessors. However, it does require lessees to recognise most leases on their balance sheets as lease liabilities, with the corresponding right-of-use assets. Lessees must apply a single model for all recognised leases, but will have the option not to recognise 'short-term' leases and leases of 'low-value' assets. Generally, the profit or loss recognition pattern for recognised leases will be similar to today's finance lease accounting, with interest and depreciation expense recognised separately in the statement of profit or loss.

IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Early application is permitted provided the new revenue standard, IFRS 15, is applied on the same date. Lessees must adopt IFRS 16 using either a full retrospective or a modified retrospective approach.

The Group does not anticipate early adopting IFRS 16 and does not expect any material impact on the consolidated financial statements of the Group.

Amendments to IAS 12 Income Taxes

In January 2016, through issuing amendments to IAS 12, the IASB clarified the accounting treatment of deferred tax assets of debt instruments measured at fair value for accounting, but measured at cost for tax purposes. The amendment is effective from 1 January 2017. The Group is currently evaluating the impact, but does not anticipate that adopting the amendments would have a material impact on its consolidated financial statements.

Amendments to IAS 7 Statement of Cash Flows

In January 2016, the IASB issued amendments to IAS 7 Statement of Cash Flows with the intention to improve disclosures of financing activities and help users to better understand the reporting entities' liquidity positions. Under the new requirements, entities will need to disclose changes in their financial liabilities as a result of financing activities such as changes from cash flows and non-cash items (e.g., gains and losses due to foreign currency movements). The amendment is effective from 1 January 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

4 FINANCIAL ASSETS AND LIABILITIES

The table below summarises the accounting classification of the Group's financial assets and financial liabilities:

	<i>Held for trading</i>	<i>Designated at fair value through statement of income</i>	<i>Available-for-sale</i>	<i>Amortised cost / Loans and receivables</i>	<i>Total</i>
	<i>US\$ 000</i>	<i>US\$ 000</i>	<i>US\$ 000</i>	<i>US\$ 000</i>	<i>US\$ 000</i>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

5 INVESTMENTS CARRIED AT FAIR VALUE THROUGH STATEMENT OF INCOME

	2016 US\$ 000	2015 US\$ 000
Investments held for trading		
Quoted equities	15,485	21,112
Quoted debt securities	10,565	-
Investments designated at fair value through statement of income		
Credit linked notes	17,800	17,741
Managed funds	1,328	11,808
	45,178	50,661

Managed funds primarily represent funds invested through unlisted companies and limited partnership interests. The fund managers have created these legal structures for tax efficiency and to meet other investors' requirements. The underlying investments in these funds are primarily in quoted debt and equity instruments in Kuwait and other international markets.

6 NON-TRADING INVESTMENTS

Non-trading investments comprise available-for-sale investments as follows:

	2016 US\$ 000	2015 US\$ 000
Quoted		
Debt securities	161,842	134,720
Equities	57,825	12,547
Total quoted	219,667	147,267
Unquoted		
Equities	121,281	63,992
Other managed funds	51,514	52,837
Real estate managed funds	11,974	16,621
Debt securities	-	4,286
Total unquoted	184,769	137,736
Total non-trading investments	404,436	285,003

Included under non-trading investments are unquoted available-for-sale investments, primarily representing nominal equity stakes up to 13.9% (2015:13.9%) in various geographically and sectorally dispersed companies, amounting to US\$ 43,789 thousand (2015: US\$ 42,782 thousand) for which fair value cannot be determined with sufficient accuracy, as future cash flows are not determinable. Accordingly, these investments are carried at cost less provisions for impairment.

The movement in provision for non-trading investments was as follows:

	2016 US\$ 000	2015 US\$ 000
At 1 January	21,502	27,558
Charge for the year	1,300	-
Reversed upon disposal	(335)	(6,056)
Net movement during the year	965	(6,056)
At 31 December	22,467	21,502
Gross amount of individually impaired investments	39,887	38,461

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

			709,043		853,984	

The Group has no share of any contingent liabilities or capital commitments, as at 31 December 2016 and 2015 on behalf of its associates.

- a) Burgan Bank S.A.K. is a listed commercial bank incorporated in the State of Kuwait. The Bank directly owns 15% (2015: 17%) equity interest in Burgan Bank. The Group has the ability to exercise significant influence on Burgan Bank through representation on the board of directors of Burgan Bank. During the year the Bank sold 2% of its holding in Burgan to KIPCO.
- b) United Real Estate Company (URC), is a company listed on the Kuwait Stock Exchange. At 31 December 2016, the Bank directly owns 10% (2015: 21%) of URC. The Group has the ability to exercise significant influence on URC through representation on the board of directors of URC. During the year the Bank sold 11% of its holding in URC to KIPCO.
- c) The Bank directly owns 33% (2015: 33%) of North Africa Holding Company (NAHC), a closed company incorporated in the State of Kuwait in 2006, and indirectly owns 11% (2015: 11%) through its subsidiary KAMCO.
- d) The Bank directly owns 40% (2015: 40%) of Assoufid B.V., a closed company incorporated in the Netherlands.
- e) Kuwait Education Fund is fund incorporated in the State of Kuwait in 2007. As of 31 December 2016, the Bank owns 34% through its subsidiary KAMCO (2015: 34%).
- f) United Capital Transport Company K.S.C.C. (UniCap) was incorporated in State of Kuwait in 2011. The Bank owns a 40% (2015: 40%) equity stake through its subsidiary KAMCO. UniCap is a dedicated leasing solutions provider to governments, international oil companies and varied construction, mining and industrial services businesses.
- g) The Bank indirectly owns 31% (2015: 31%) of Manafae Investment Company through its subsidiary KAMCO.
- h) The Bank indirectly owns 20% (2015: 20%) of N.S. 88 through its subsidiary KAMCO, formerly known as Savannah SPV.

9 INVESTMENTS IN ASSOCIATES (continued)

- i) Al Sharq Financial Brokerage Company (Al Sharq) is a closed company incorporated in the State of Kuwait during 2005. At 31 December 2016, the Bank indirectly owns a 19% interest in the associate through its subsidiary KAMCO (2015: 19%). The Group has the ability to exercise significant influence on Al Sharq through representation on the board of directors of Al Sharq. During the year, the Group has assessed the recoverable amount of its investment in Al Sharq and determined it to be impaired by US\$ 1,633 thousand (2015: US\$ 1,648 thousand).
- j) Syria Gulf Bank (SGB) is a commercial bank incorporated in the Syrian Arab Republic. SGB commenced commercial operations in 2007. The Bank directly owns a 31% (2015: 31%) equity stake in SGB.
- k) The Bank indirectly owns 50% (2015: 40%) of Brasilfactors through its subsidiary FIMBank.
- l) The Bank indirectly owns 20% (2015: 20%) of Meena Homes Real Estate Company through its subsidiary KAMCO.
- m) Arab Leadership Academy is training institute incorporated in the State of Kuwait in 2007. As of 31 December 2016, the Bank owns 15% (2015: 15%) through its subsidiary KAMCO. The Group has significant influence by appointment of directors on the Board of Directors of Arab Leadership Academy.
- n) United Real Estate Company - Syria is a closed company incorporated in the Syrian Arab Republic. At 31 December 2016, the Bank directly owns 20% (2015: 20%) of its equity stake.
- o) Royal Capital is a closed company incorporated in the United Arab Emirates in 2007. During the year, the Bank has sold its ownership in Royal Capital.
- p) The Bank indirectly owns 17% (2015: 22%) of KAMCO Real Estate Yield Fund ("KREYF") through its subsidiary KAMCO. During the year, the investment was reclassified from "Investments in associates" to "Non-trading investments" as the Group could no longer exercise significant influence over KREYF.
- q) During the year, the Group acquired additional 50% equity interest in The Egyptian Company for Factoring S.A.E. ("Egypt Factors"), following which Egypt Factors has become a subsidiary of the Group. As of 31 December 2016, the Bank indirectly owns 100% (2015: 50%) of Egypt Factors through its subsidiary FIMBank. As of 31 December 2015, the Group's investment in Egypt Factors was determined to be impaired by US\$ 1,505 thousand.
- r) The Bank directly owns 50% of Takaad. During the year, the Bank lost control over the Takaad following the management's decision not to participate in Takaad's proposed capital increase (Note 2). Accordingly, the investment in Takaad has been classified as an investment in an associate.

Investments in associates include quoted associates with a carrying value of US\$ 555,212 thousand (2015: US\$ 695,963 thousand) with a total quoted market price of US\$ 343,713 thousand at 31 December 2016 (2015: US\$ 519,003 thousand). In accordance with IAS 36, 'Impairment of Assets', the Group's recoverable amount of these associates (i.e. value in use) was in excess of their carrying values and accordingly no impairment was recognised against these investments during the year ended 31 December 2016 (2015: same).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

10 INVESTMENT PROPERTIES

	2016 US\$ 000	2015 US\$ 000
At 1 January	46,222	4,774
Acquisition*	56,000	19,708
Acquisition of a subsidiary	-	26,500
Other movements / disposals	(896)	(4,760)
At 31 December	101,326	46,222

Investment properties comprise of land and buildings owned by the Group. These are stated at fair values, determined based on independent valuations performed by external professional valuers at the year end.

* Acquisition during the year includes buildings of US\$ 56 million which are located in Kuwait City, State of Kuwait.

Valuations of investment properties were conducted by independent appraisers with a recognised and relevant professional qualification and recent experience of the location and category of investment property being valued. The discounted future cash flow method or property market value method have been used as deemed appropriate considering the nature and usage of the property.

The Group's investment properties are categorised in level 2 and 3 of the fair value hierarchy as at 31 December 2016 and 2015.

11 GOODWILL

	2016 US\$ 000	2015 US\$ 000
At 1 January	52,321	54,509
Foreign currency translation adjustments	(453)	(2,188)
At 31 December	51,868	52,321

The goodwill remaining as of 31 December mainly relates to KAMCO (a subsidiary) and is allocated to the asset management and investment banking operating segment, a cash generating unit (a CGU). The recoverable amount of the CGU is determined based on a value in use calculation using cash flow projections from financial budgets approved by the Group's senior management covering a five year period. The key assumptions used in the value in use calculation include a perpetuity growth rate of 3% (2015: 3%) and discount factor of 10.7% (2015: 10%). There was no goodwill impairment identified in 2016 or 2015 as the recoverable amount of the CGU was higher than its net book value.

The calculation of value in use for the CGU is sensitive primarily to market risk premium, growth risk rate, risk free rate and country risk premium.

The sensitivity of the value in use calculation to changes in key assumptions used in the impairment assessment of goodwill is disclosed below:

Key assumptions	Impact of change	
	+10 % US\$ 000	-10 % US\$ 000
Growth rate	5,362	(5,080)
Discount factor	(15,239)	20,036

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

12 TAXATION

The Group's subsidiaries in Malta, the United Kingdom, India, Chile and the United States of America are subject to income tax.

a) Deferred tax assets

Deferred tax assets relate to the following:

	2016 US\$ 000	2015 US\$ 000
Excess of capital allowances over depreciation	(294)	(416)
Allowances for uncollectibility	18,069	23,610
Changes in fair value of financial instruments	3,578	163
Investment tax credits	239	328
Unabsorbed capital allowances	542	275
Unabsorbed tax losses	19,750	16,608
	41,884	40,568

Reconciliation of deferred tax assets is as follows:

	Opening balance US\$ 000	Recognised in other comprehensive income US\$ 000	Recognised in statement of income US\$ 000	Effects of movement in exchange rates US\$ 000	Closing balance US\$ 000
2016

	33,913	(205)	7,521	(661)	40,568

As at 31 December 2016, the Group has tax losses arising out of subsidiaries in Malta and the United Kingdom of US\$ 72,854 thousand (31 December 2015: US\$ 95,889 thousand) that are available for offsetting against future taxable profits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

12 TAXATION (continued)

b) Deferred tax liabilities

Deferred tax liabilities relate to the following:

	2016 US\$ 000	2015 US\$ 000
Excess of capital allowances over depreciation	403	403
Changes in fair value of financial instruments	1,799	1,805
	2,202	2,208

Reconciliation of deferred tax liabilities is as follows:

	Opening balance	Arising on acquisition	Recognised in statement of income	Closing balance
2016				
Excess of capital allowances over depreciation	403	-	-	403
Changes in fair value of financial instruments	1,805	-	(6)	1,799
	2,208	-	(6)	2,202
2015				
Excess of capital allowances over depreciation	-	115	288	403
Changes in fair value of financial instruments	-	1,259	546	1,805
	-	1,374	834	2,208

c) Income tax credit

The major components of income tax credit for the year ended 31 December are as follows:

	2016 US\$ 000	2015 US\$ 000
Consolidated statement of income		
Current income tax charge	(114)	(50)
Movement in deferred tax assets recognised in statement of income	697	7,521
Movement in deferred tax liabilities recognised in statement of income	(6)	(834)
Income tax credit reported in the statement of income - net	577	6,637

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

14 SUBORDINATED DEBT

During the current year, the Bank's 10-year floating rate notes amounting to US\$ 100 million matured and were repaid. As of 31 December 2016, the Group's sub-ordinated debt comprises of a 5-year loan amounting to US\$ 50 million issued in 2015 by FIMBank, a subsidiary of the Group. The instrument carries a floating rate of interest and ranks after the Group's unsubordinated, secured and unsecured creditors. The Group's subordinated debt qualifies as Tier 2 capital under the provisions of capital adequacy guidelines issued by the CBB.

15 OTHER LIABILITIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

16 EQUITY**Share capital**

The Bank's authorised share capital as of 31 December 2016 comprised 1 billion shares of US\$ 0.25 each (2015: 1 billion shares of US\$ 0.25 each).

The issued and fully paid up share capital as of 31 December 2016 comprised 834,602,295 shares of US\$ 0.25 each (2015: 834,602,295 shares of US\$ 0.25 each).

Treasury shares and treasury shares reserve

At 31 December 2016, the Bank held 19,454,135 treasury shares (2015: 19,454,135 shares). These treasury shares do not carry any voting rights and are not entitled to dividends. The net gain or loss on reissuance of treasury shares is taken to treasury share reserve in the consolidated statement of changes in equity and is not available for distribution. The value of treasury shares based on the last bid price of US\$ 0.93 (equivalent to BD 0.350) per share as of 31 December 2016 was US\$ 18,061 thousand [2015: US\$ 20,125 thousand at US\$ 1.03 (equivalent to BD 0.390) per share].

Share premium

Share premium represents a non-distributable reserve arising from the exercise of the Bank's Employee Share Option Plan. The reserve is credited with the difference between the proceeds from the exercise of share options and the par value of the shares issued under the plan.

Statutory reserve

In accordance with the Bahrain Commercial Companies Law and the Bank's articles of association, 10% of the profit for the year is transferred to a statutory reserve until such time as the reserve reaches 50% of the Bank's paid-up share capital. The reserve is not available for distribution, except in circumstances as stipulated in the Bahrain Commercial Companies Law and following the approval of the Central Bank of Bahrain.

General reserve

The Directors have approved a transfer of 10% (2015:10%) of the profit of the Group for the year to general reserve in accordance with the Bank's Articles of Association. The transfer is subject to shareholders' approval at the forthcoming Annual General Meeting. The general reserve is distributable subject to the approval of the Central Bank of Bahrain.

Dividend paid

No dividend was announced or paid during the years ended 31 December 2016 or 2015.

Foreign currency translation reserve

The foreign currency translation reserve represents the net foreign exchange gain or loss arising from translating the financial statements of the Bank's foreign subsidiaries and associated companies from their functional currencies into United States Dollars.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

18 PERPETUAL TIER 1 CAPITAL

On 28th March 2016, the Bank issued Perpetual Additional Tier 1 Capital (the "AT1 Capital") amounting to US\$ 33,000 thousand.

The AT1 Capital constitutes subordinated obligations of the Bank and is classified as equity in accordance with IAS 32: Financial Instruments – Classification. The AT1 Capital does not have a maturity date and bears interest on its nominal amount from the date of issue at a fixed annual rate.

The AT1 Capital is redeemable by the Bank at its sole discretion on or after 28 March 2021 or on any interest payment date thereafter subject to the prior consent of the Central Bank of Bahrain.

The Bank as its sole discretion may elect not to distribute interest and this is not considered an event of default. If the Bank does not pay interest on the AT1 Capital (for whatever reason), then the Bank must not make any other distribution on or with respect to its other shares that rank equally with or junior to the AT1 Capital.

26 SEGMENTAL INFORMATION

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Acting Chief Executive Officer, who is responsible for allocating resources to the reportable segments and assessing their performance. All operating segments reported by the Group meet the definition of a reportable segment under IFRS 8.

For management purposes, the Group is organised into business units based on the nature of their operations and services. The Group has two reportable operating segments being 'asset management and investment banking' and 'commercial banking'.

Asset management and investment banking	Undertaking asset portfolio management, corporate finance, advisory, investments in quoted and private equity/funds, real estate, capital markets, international banking and treasury activities.
Commercial banking	Loans and other credit facilities, deposit and current accounts from corporate and institutional customers.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Transactions between segments are generally recorded at estimated market rates.

Derivatives used as hedge of net investments in foreign operations						
Forward foreign exchange contracts	575	(213)	699,479	699,479	-	-
Derivatives used as cash flow hedges						
Interest rate swap	205	(15)	200,000	-	50,000	150,000

* The Group uses foreign currency denominated borrowings and forward currency contracts to manage some of its transaction exposures. These currency forward contracts are not designated as cash flow, fair value or net investment in foreign operations hedges and are entered into for periods consistent with currency transaction exposures.

Forward foreign exchange contracts are contractual agreements to either buy or sell a specified currency, at a specific price and date in the future, and are customised contracts transacted in the over-the-counter market.

Swaps are contractual agreements between two parties to exchange interest or foreign currency differentials based on a specific notional amount. For interest rate swaps, counterparties generally exchange fixed and floating rate interest payments based on a notional value in a single currency.

Hedge of net investments in foreign operations

The Bank has designated certain forward foreign exchange contracts to hedge against changes in the value of its investments in foreign operations for an amount of US\$ 711 million (KWD 218 million) [2015: US\$ 699 million (KWD 212 million)]. Gains or losses on the retranslation of these forward foreign exchange contracts are transferred to equity through other comprehensive income to offset any gains or losses on the translation of the net investments in foreign operations.

29 DERIVATIVES (continued)**Cash flow hedges**

The Group is exposed to variability in interest cash flows on liabilities which bear interest at a variable rate. The Group uses interest rate swaps as cash flow hedges of these interest rate risks. A schedule indicating as at 31 December, the periods when the net cash flows are expected to occur and when they are expected to affect the consolidated statement of income is as follows:

	2016		2015	
	<i>Within</i>		<i>Within</i>	
	1 year	1-5 years	1 year	1-5 years
	US\$ 000	US\$ 000	US\$ 000	US\$ 000
Net cash outflows (liabilities)	1,347	873	882	930
Statement of comprehensive income	152	693	(15)	205

30 RISK MANAGEMENT**a) Introduction**

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is considered critical to the Group's continuing profitability.

The independent risk control process does not include business risks such as changes in the environment, technology and industry. They are monitored through the Group's strategic planning process.

The major risks to which the Group is exposed while conducting its business and operations, and the means and organisational structure it employs to manage them strategically for building shareholder value, are outlined below.

Risk management structure

Each subsidiary within the Group is responsible for managing its own risks and has its own Board Committees, including Audit and Executive Committees in addition to other management committees such as Credit/ Investment Committee and (in the case of major subsidiaries) Asset and Liability Committees (ALCO), or equivalent, with responsibilities generally the same as the Bank's committees.

The Board's role is to approve investment strategies of the Bank. However, it has delegated authority for the day-to-day decision making to the Executive Committee so that risk can be effectively managed within the Bank.

The Board of Directors has delegated the Executive Management of the Bank to the Acting Chief Executive Officer (who is not a Director) and has appointed several Board Committees to work with him and to form and define policies and approve procedures for all of the Bank's activities.

The Executive Management of the Bank is headed by the Acting Chief Executive Officer who is broadly responsible for the day to day conduct of the Bank's business in line with the Board's approved policies and procedures and complements and facilitates the Board in meeting its responsibility towards all stakeholders. He is assisted by the six members of the Bank's management team, each of whom is responsible for his or her respective department. Several management committees have been formed which are chaired by the Acting Chief Executive Officer.

Executive Committee

The Executive Committee comprises of four directors including the Chairman, Vice Chairman and two other directors. Board meetings are held through circulation to approve all proposals not within the Investment Committee's risk authority, as well as to act on all matters within the Board's remit.

30 RISK MANAGEMENT (continued)

a) Introduction (continued)

Risk management structure (continued)

Investment Committee

The Investment Committee is mainly responsible for approving or recommending approval to the Executive Committee limits for individual exposures, investments and concentrations towards banks, countries, industries, risk rating classes, or other special risk asset categories. In addition, the Committee also monitors the overall risk profile of the Bank and recommends provision levels to the Executive Committee. The Investment Committee is constituted by a majority motion passed in the Executive Committee. Currently the Committee consists of four members.

Audit Committee

The Audit Committee is appointed by the Board and consists of four members who are Directors, including three independent Directors. The Audit Committee assists the Board in carrying out its responsibilities with respect to assessing (a) the quality and integrity of financial reporting, (b) the audit thereof, (c) the soundness of the internal controls of the Bank, (d) the risk assessment of the Bank's activities, and (e) the methods for monitoring compliance with laws, regulations and supervisory and internal policies.

Risk and Compliance

The Risk and Compliance Committee is responsible for the monitoring and assessment of risks facing the Bank, the review of compliance with internal and external guidelines, the review and recommendation of provisioning requirements, the assessment of the impact on the Bank from new regulatory requirements, and review of Investment Committee decisions. The Committee comprises of six senior executives of the Bank including the Acting Chief Executive Officer. Additionally, the Head of Internal Audit and Quality Assurance participates in the Committee meetings in the capacity of an observer.

Asset and Liability Committee

The Asset and Liability Committee establishes policies and objectives for the asset and liability management of the Bank's statement of financial position in terms of structure, distribution, risk and return and its impact on profitability. It also monitors the cash flow, tenor and cost/yield profiles of assets and liabilities and evaluates the Bank's financial position both from interest rate sensitivity and liquidity points of view, making corrective adjustments based upon perceived trends and market conditions, monitoring liquidity, monitoring foreign exchange exposures and positions. The Committee comprises of six senior executives of the Bank including the Acting Chief Executive Officer.

Management Committee

The Management Committee acts as the steering committee of the Bank as well as a management forum to discuss any relevant issues. It meets on a weekly basis and consists of the Acting Chief Executive Officer and all Department Heads as well as Internal Audit. It also serves to follow up on a weekly basis on the daily conduct of the Bank's business activities. The Committee is headed by the Acting Chief Executive Officer.

Key Persons Committee

The Key Persons Committee comprises three members of senior management. The Committee is mainly responsible for the supervision of adequacy of compliance with the Central Bank of Bahrain and Bahrain Bourse guidelines on key persons trading (insider trading).

Monitoring and controlling risks is primarily performed based on limits established by the Bank. These limits reflect the business strategy and market environment of the Bank as well as the level of risk that the Bank is willing to accept, with additional emphasis on selected geographies and industry sectors. In addition, the Bank monitors and measures the overall risk bearing capacity in relation to the aggregate risk exposure across all risk types and activities.

30 RISK MANAGEMENT (continued)

a) Introduction (continued)

Nominating and Remunerations Committee

The Nominating and Remuneration Committee (NRC) assists the Board in assessing the skills set of Board members and is responsible to oversee the preparation of appropriate nomination documents and notifications proposing candidates for directorships. It reviews the independence of directors on an annual basis, supervises the preparation of induction materials and orientation sessions, makes recommendations to the Board regarding the management structure and ensures that there is a succession plan in place. The NRC comprises of three members, all of whom are independent.

The NRC also recommends/ reviews the remuneration policies for the Board of directors and senior management and submits recommendations for shareholders' approval.

Risk mitigation

As part of its overall risk management, the Group uses derivatives and other instruments to manage exposures resulting from changes in interest rates and foreign currency transactions.

The risk profile is assessed before entering into hedge transactions, which are authorised by the appropriate level of seniority within the Group.

Where warranted, the Group enters into legally enforceable netting arrangements covering its money market and foreign exchange trading activities whereby the only net amounts may be settled at maturity. With regard to the credit risk in the off statement of financial statement exposures, third party guarantees are obtained wherever possible as a risk mitigation measure.

Concentration risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on country and counterparty limits and maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Robust limit structures put in place by the Board ensures effective monitoring and control of concentration risk and any limit breaches are immediately rectified and reported to the Board.

b) Credit risk

Credit risk arises from the extension of credit facilities in the Group's banking and trading activities as well as in investment activities where there is a possibility that a counterparty may fail to honour its commitment whenever an investment may fail.

Credit risk is mitigated through:

- (i) Establishing an appropriate credit risk environment;
- (ii) Operating under a sound credit and investment approval process;
- (iii) Maintaining appropriate credit administration, measurement and monitoring processes; and
- (iv) Ensuring adequate controls over the credit risk management process.

The Group has well defined policies approved at the individual board level. These provide carefully documented guidelines for credit risk management. There is a two tier committee structure to approve and review credit and investment risk. The Investment Committee comprises of the Acting Chief Executive Officer, Head of Treasury and the Chief Financial Officer. The Acting Head of Credit and Risk Management acts as a non-voting member to the Committee. Exposures beyond Investment Committee limits are approved by the Board's Executive Committee or by the full Board.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

30 RISK MANAGEMENT (continued)**b) Credit risk (continued)****Maximum exposure to credit risk without taking account of any collateral or other credit enhancements**

The table below shows the Group's maximum exposure to credit risk for the components of on and off statement of financial position exposure. The maximum exposure shown is gross before the effect of mitigation through the use of master netting and collateral arrangements, but after any provision for impairment.

	2016 US\$ 000	2015 US\$ 000
Demand and call deposits with banks	176,880	176,793
Placements with banks	187,350	57,026
Non-trading	161,842	139,006
Loans and receivables	1,184,804	1,032,098
Other assets	104,462	115,302
Letters of credit	52,044	88,159
Letters of guarantee	7,161	11,082
Derivative financial assets	4,208	205
	1,878,751	1,619,671

Risk concentrations of the maximum exposure to credit risk

Concentration of risk is managed by client/counterparty, by geographical region and by industry sector. The maximum credit exposure to any single client or counterparty as of 31 December 2016 was US\$ 120 million (2015 US\$ 104 million) before taking account of collateral or other credit enhancements.

An analysis of the Group's financial assets by geographical region, before taking into account collateral held or other credit enhancements, is as follows:

	G.C.C. US\$ 000	Middle East and North Africa US\$ 000	Europe US\$ 000	Americas US\$ 000	Asia US\$ 000	Others US\$ 000	Total US\$ 000

Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained for commercial lending include charges over real estate properties, inventory, trade receivables, trading securities and bank guarantees.

The Group also obtains guarantees from parent companies for loans to their subsidiaries.

Management monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement, during its review of the adequacy of the allowance for impairment losses.

It is the Group's policy to maintain accurate and consistent risk ratings across the credit portfolio. This facilitates focused management of the applicable risk and the comparison of credit exposures across all business lines, geographic regions and products. All externally rated credit risk exposures are rated by the relevant External Credit Assessment Institutions ("ECAIs").

Additionally, the internal risk ratings of the Group's externally unrated credit risk exposures which are largely subjective, are tailored to the various categories and are derived in accordance with the internal rating policy and practices. The attributable internal risk ratings are assessed and updated on a regular basis.

30 RISK MANAGEMENT (continued)**b) Credit risk exposure for each credit rating (continued)**

The table above reflects the risk ratings of the credit risk exposures rated by the relevant ECAs. All of the externally unrated credit risk exposures have been classified under "Unrated" category.

Restructured loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. The Group had US\$ 17,258 thousand of restructured loans as of 31 December 2016 (31 December 2015: US\$ 20,347 thousand).

Offsetting financial assets and financial liabilities

The disclosures set out in the table below include financial assets and financial liabilities that are offset in the Group's statement of financial position:

	<i>Loans and receivables US\$ 000</i>	<i>Customer deposits US\$ 000</i>
31 December 2016		
Gross amounts of recognised financial asset (liability)	133,450	(133,450)
Gross amounts offset in the consolidated statement of financial position	(133,450)	133,450
Net amount of financial liability presented in the consolidated statement of financial position	-	-
31 December 2015		
Gross amounts of recognised financial asset (liability)	155,000	(155,023)
Gross amounts offset in the consolidated statement of financial position	(155,000)	155,000
Net amount of financial liability presented in the consolidated statement of financial position	-	(23)

c) Market risk

Market risk is defined as the risk of losses in the value of on-or-off statement of financial position financial instruments caused by a change in market prices or rates, (including changes in interest rates and foreign exchange rates). The Group's policy guidelines for market risk have been vetted by the Board of Directors in compliance with the rules and guidelines provided by the Central Bank of Bahrain. The Central Bank of Bahrain guidelines introduced a risk measurement framework whereby all locally incorporated banks in Bahrain are required to measure and apply capital charges in respect of their market risk in addition to capital requirements for credit risk and operational risk.

The market risk subject to capital charge normally arises from changes in value due to market forces in the following exposures:

- Interest rate instruments and securities in the trading book; and
- Foreign exchange throughout the banking book.

The Group has entered into interest rate swaps and forward foreign exchange contracts for hedging purposes and does not actively trade in derivatives.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

30 RISK MANAGEMENT (continued)**c) Market risk (continued)****Interest rate risk**

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. Positions are monitored on a daily basis and hedging strategies are used to ensure positions are maintained within the established limits.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's consolidated statement of income based on the consolidated statement of financial position as of 31 December:

Currency	Sensitivity of		Sensitivity of	
	Increase in	net interest	Increase in	net interest
	basis	income	basis	income
	points	2016	points	2015
	2016	US\$ 000	2015	US\$ 000
Kuwaiti Dinar	+ 25	(439)	+ 25	(511)
United States Dollar	+ 25	(404)	+ 25	(1,040)
Euro	+ 25	(1,093)	+ 25	(109)
Pound Sterling	+ 25	6	+ 25	6
Others	+ 25	76	+ 25	143

The decrease in the basis points will have an opposite impact on the net interest income.

The sensitivity of the consolidated statement of income is the effect of the assumed changes in interest rates on the net interest income for one year, based on the floating rate financial assets and financial liabilities held at 31 December 2016, including the effect of hedging instruments.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group considers the United States Dollar as its functional currency. Positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

The table below indicates the effect on profit before tax for the positions as at statement of financial position date as a result of change in the currency rate with all other variables held constant.

Currency	Effect on		Effect on		Effect on	
	Change in	profit	Effect on	Change in	profit	Effect on
	currency	before tax	equity	currency	before tax	equity
	rate in %	2016	2016	rate in %	2015	2015
	2016	US\$ 000	US\$ 000	2015	US\$ 000	US\$ 000
Kuwaiti Dinar	+2	443	1,668	+2	(21,653)	1,643
	-2	(443)	(1,668)	-2	21,653	(1,643)
Euro	+2	8,001	-	+2	(1,518)	-
	-2	(8,001)	-	-2	1,518	-
Pound Sterling	+2	65	-	+2	23	-
	-2	(65)	-	-2	(23)	-

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

30 RISK MANAGEMENT (continued)**c) Market risk (continued)****Equity price risk**

Equity price risk arises from the change in fair values of equity investments. The Group manages this risk through diversification of investments in terms of geographical distribution and industry concentration.

The geographical distribution of the Group's equity investments is as follows:

Geographical distribution

At 31 December 2016	<i>Middle East/ North Africa</i> US\$ 000	<i>Europe</i> US\$ 000	<i>North America</i> US\$ 000	<i>Others</i> US\$ 000	<i>Total</i> US\$ 000
Investments carried at fair value through statement of income					
Quoted equities	13,413	1,057	1	1,014	15,485
Managed funds	1,021	241	66	-	1,328
Credit linked notes	-	17,800	-	-	17,800
	14,434	19,098	67	1,014	34,613
Non-trading investments					
Quoted equities	46,265	-	11,560	-	57,825
Unquoted equities	92,900	21,237	7,144	-	121,281
Managed funds	57,544	5,576	368	-	63,488
	196,709	26,813	19,072	-	242,594
Total	211,143	45,911	19,139	1,014	277,207
At 31 December 2015	<i>Middle East/ North Africa</i> US\$ 000	<i>Europe</i> US\$ 000	<i>North America</i> US\$ 000	<i>Others</i> US\$ 000	<i>Total</i> US\$ 000
Investments carried at fair value through statement of income					
Quoted equities	15,583	706	4,053	770	21,112
Managed funds	11,341	401	66	-	11,808
Credit linked notes	-	17,741	-	-	17,741
	26,924	18,848	4,119	770	50,661
Non-trading investments					
Quoted equities	2,497	-	10,050	-	12,547
Unquoted equities	41,131	16,406	6,455	-	63,992
Managed funds	63,072	5,689	697	-	69,458
	106,700	22,095	17,202	-	145,997
Total	133,624	40,943	21,321	770	196,658

At the reporting date, the exposure to listed equity securities at fair value was US\$ 73,310 thousand (2015: US\$ 33,659 thousand). A decrease of 10% on the market indices of MENA stock exchanges could have an impact of approximately US\$ 7,331 thousand (2015: US\$ 3,365 thousand) on the income or equity attributable to the Group, depending on whether the decline is significant or prolonged. The majority of the equities in the MENA region are quoted on the Kuwait Stock Exchange.

For unquoted investments carried at cost the impact of the changes in the equity prices will only be reflected in the consolidated statement of income when the investment is sold or deemed to be impaired.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

d) Liquidity risk

Analysis of financial liabilities by remaining contractual maturities

The table below summarises the maturity profile of the Group's financial liabilities at 31 December 2016 based on contractual undiscounted repayment obligations. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Group expects that many customers will not request repayment on the earliest date the Group could be required to pay and the table does not reflect the expected cash flows indicated by the Group's deposit retention history.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2016

30 RISK MANAGEMENT (continued)**d) Liquidity risk (continued)**

In order to ensure that the Group can meet its financial obligations as they fall due, there is a close monitoring of its assets / liabilities position. Besides other functions, the Asset-Liability Committee evaluates the statement of financial position both from a liquidity and an interest rate sensitivity point of view. The whole process is aimed at ensuring sufficient liquidity to fund its ongoing business activities and to meet its obligations as they fall due. A diversified funding base has evolved in deposits raised from the interbank market, deposits received from customers and medium term funds raised through syndicated and commodity based murabaha transactions. These, together with the strength of its equity and the asset quality, ensure that funds are made available on competitive rates.

The maturity analysis of assets and liabilities analysed according to when they are expected to be recovered or settled are as follows:

At 31 December 2016

	<i>Less than 12 months US\$ 000</i>	<i>Over 12 months US\$ 000</i>	<i>Total US\$ 000</i>

e) Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. When controls fail to perform operational risk can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group has established a board approved framework for operational risk management which comprehensively outlines operational risk appetite for the Bank and provides operational risk management procedures. The Framework is supported by a dedicated operational risk system covering Loss Data Collection, Risk and Control Self Assessment and Key Indicator modules which have been rolled out in the Bank. While, the Group cannot expect to eliminate all operational risks, but through dedicated operational risk framework and by monitoring and responding to potential risks, the Group is able to manage the risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit.

31 FAIR VALUE MEASUREMENT

The Group uses the hierarchy for determining and disclosing the fair value of financial instruments as disclosed in Note 2.

Management has assessed that financial assets comprising of demand and call deposits with banks, placements with banks, and loans and receivables maturing within one year, and financial liabilities comprising of on-demand customer deposits, amounts due to banks and loans payable falling due within one year approximate their carrying values largely due to the short term maturities of these instruments. Non-trading investments carried at cost are disclosed in Note 6.

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

Quantitative disclosures fair value measurement hierarchy for assets as at 31 December 2016:

At 31 December 2016

32 CAPITAL ADEQUACY

The Bank maintains an actively managed capital base to cover risks inherent in the business. The adequacy of the Bank's capital is monitored using, among other measures, the rules and ratios established by the Basel Committee on Banking Supervision ("BIS rules/ratios") as adopted by the Central Bank of Bahrain.

Capital management

The primary objectives of the Group's capital management are to ensure that the Group complies with capital requirements of the Central Bank of Bahrain and that the Group maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholders' value. In order to maintain or adjust the capital structure, the Bank may adjust the amount of dividend payment to shareholders, or issue equity securities. No changes were made in the capital management objectives, policies and processes from previous years.

The risk asset ratio calculated in accordance with the capital adequacy guidelines issued by the Central Bank of Bahrain, for the Group is as follows:

	2016	2015
	US\$ 000	US\$ 000
Capital base:		
Tier 1	264,123	316,345
Tier 2	73,751	88,292
Total capital base (a)	337,874	404,637
Credit risk weighted exposure	2,227,194	2,576,211
Market risk weighted exposure	122,725	66,898
Operational risk weighted exposure	84,638	52,750
Total risk weighted exposure (b)	2,434,557	2,695,859
Capital adequacy (a/b * 100)	13.88%	15.01%
Minimum requirement	12.5%	12.5%

Regulatory capital consists of Tier 1 capital, which comprises share capital, share premium, statutory reserve, general reserve, treasury share reserve, foreign currency reserve, retained earnings and non-controlling interests less goodwill. The other component of regulatory capital is Tier 2 capital, which includes subordinated long term debt and fair value reserves.
